From Crisis to Care - Q2 2026 Update - 31 July 2026

• NEW WAYS ORGANIZATION

• STANDING WITH COMMUNITIES IN NEED

A message from The Executive Director

As we reflect on our ongoing mission across our geographic operations in southern Somalia, I am immensely proud to share the transformative progress we have achieved together. Our teams have worked tirelessly on the ground to address critical community needs, focusing heavily on our core pillars: WASH (Water, Sanitation, and Hygiene), health, nutrition, and education.

Through our integrated WASH initiatives, we have expanded access to safe drinking water and vital hygiene education, significantly reducing waterborne illnesses in vulnerable settlements. Concurrently, our health and nutrition programs continue to save lives. Through delivering therapeutic feeding and essential medical care, we are reversing malnutrition trends and bringing hope to mothers and children in underserved regions.

Education remains the cornerstone of long-term resilience. Through rehabilitating learning spaces and supplying educational materials, we are ensuring that children can continue their schooling safely, building a brighter foundation for Somalia's future. None of these monumental strides would be possible without the unwavering support, trust, and collaboration of our esteemed partners.

On behalf of the entire team at New Ways Organization, I want to express my deepest and most sincere appreciation to our generous donors and humanitarian allies, including UNICEF, the Somalia Humanitarian Fund (SHF), Catholic Relief Services (CRS) Somalia, and our many other local and international partners. Your financial commitments, shared vision, and compassionate solidarity empower us to reach the most vulnerable populations when they need us most.

As we look ahead, the challenges remain great, but our collective resolve is even greater. Together, we will continue to foster sustainable development, dignity, and hope throughout Somalia.

Thank you for standing with us.
